   She gave the cashier 5 two-dollar notes.

   How much change did she receive?

   Answer: $ _____

5. Fernando and Steven donated $1.55.

    Fernando donated $0.85 more than Steven.

    How much did Steven donate?

    Give your answer in cents.

Answer: _____ ¢

SOLUTIONS

Problem 1

$29.00 − $14.20 = $14.80

A child ticket costs $14.80.

$29.00 + $14.80 = $43.80

She paid $43.80 for the two tickets.

Problem 2

$10.45 + $4.20 = $14.65

She spent $14.65 this month.

$10.45 + $14.65 = $25.10

She spent $25.10 in the two months.

Problem 3

$5.15 + $4.45 = $9.60

Monica spent $9.60 on Day 1 and Day 2.

$14.00 − $9.60 = $4.40

She spent $4.40 on Day 3.

Problem 4

5 × $2 = $10

She gave $10 to the cashier.

$10.00 − $8.60 = $1.40

She received a change of $1.40.

Problem 5

$1.55 − $0.85 = 155 ¢ − 85 ¢

= 70 ¢

70 ¢ ÷ 2 = 35 ¢

Steven donated 35 ¢.
